

Club News (cont)

Did you know the APS Winter Show for 2005 is to be right in our backyard? Yep, this coming February in nearby Atlanta, nonetheless. There will be more on this in later issues, but it would be a good idea to mark your calendar now - see the Program Schedule for dates & times. You can expect about 80 dealers and over 4500 pages of exhibits. Speaking of exhibits, entries close on Nov 15. You can download the prospectus and entry form from the APS web site or pick up one at our November meeting. Of course you can reach the APS website either from our Club site or the Federation site (see how handy!).

Speaking of exhibits, it's not too *early* to start working on your exhibit for the *Southeastern Stamp Show* (formerly *Peach State Stamp Show*) the last weekend in September. Almost a year away you say. It can take that long to develop a winning exhibit - just ask [Bill Caldwell](#) or [Jim Cate](#).

The *Southeast Federation of Stamp Clubs* continues to grow. Membership is now at nineteen clubs with addition last month of the *German Philatelic Society, Chapter 23*. Welcome *GPS*! With the name change earlier this year and the growth that has been enjoyed, it has been appropriate to revise the By-Laws. This revision will be available for member club consideration soon.

To ensure that you are plugged in for all Club matters, make certain to fill in completely the sign-in sheet at the next or future meetings. In addition to your postal mail address, Rebecca needs your:

PHONE #/EMAIL/SOCIETY AFFILIATIONS/ & COLLECTING
INTERESTS (SPECIALTY)....

....And anything else that will help us know you better (your dog's name, your mother's maiden name....No, just kidding!).

You will notice a couple of blank spots on the Program Schedule. Want to do something nice for the Club and help out the Program Chairman at the same time? [Bill White](#) would love a call from you saying you have a topic to present. It can be a short one (~ 15 min) or longer (~ 35 minutes). [Bill](#) is sitting by the phone waiting.

It is not how busy we are but why....
The bee is praised,
The mosquito is censored.

S Brenner
